

ASCLS-IL NORTHWEST BRANCH

Invites You

Please join us for our

Fall 2014 Event

Thursday November 20, 6pm-7pm

"The use of Quantiferon TB Gold as an aid in diagnosing Mycobacterium Tuberculosis Infection"

The presentation walks through how pre-analytic variables affect the outcome of Quantiferon testing when using the ELISA method and limitations of the test with regards to testing algorithms including re-testing zones

**Presented by Elana Postawa MLS (ASCP)^{CM}
Core Lab Supervisor at the ACL Labs in Rosemont**

At the end of the session, the participant should be able to:

1. List the testing categories of the Automated Immunoassay Laboratory (AIA)
2. Describe the instruments used in the AIA laboratory and the tests performed on Each
3. Discuss the role of the CLS in the AIA laboratory

Contact hour: 1hr
